now is the money issue. In today's generation receiving a scholarship would be the best way to get through college without the burden of student loan debt piling up as you get further into college.

Tuition is rising, more students are in debt and at higher levels than ever before, and pressure is mounting from every direction and in both political parties--from the White House to state legislatures to overwhelmed parents and students--to do something about it. On the other hand, many colleges and college systems across the country have become more innovative and resourceful in providing higher education at lower cost, reducing expenditures on business operations,

So why hasn't this

translated--usually--into costs savings for students? This issue paper outlines details of some key facts about higher education costs and prices that may provide some context for current policy debates. They include: (1) The actual cost to provide a public college education; (2) How much of the cost is covered by tuition; (3) How states differ in tuition and public support; (3) Why tuition is not going down even after colleges cut costs; (4) How institution subsidies differ from state financial aid; (5) What students' total education expenses actually are; and (6) Pros and cons of lower tuition.

As states and families begin to recover from the effects of the Great Recession, some of the urgency about college affordability may start to ease. The most recent "Trends in College Pricing" report shows tuition rising more slowly than in recent years (Baum and Ma 2013). Growth in Pell grant applications is also expected to slow as income picks back up and many students transition into newly available jobs. Yet it could all happen again when the next crisis hits. Education budgets could be slashed indiscriminately, tuition could skyrocket just as incomes are falling, and the worst-off states could find themselves

least able to keep the college dream alive for students who count on public support. If we learned anything from the last few years, however, we can be better prepared. In order not to repeat some of the mistakes of the recession, it will help to understand how the economy, college costs, and college prices interact. Factors that can make costs higher or lower than the average include: (1) Types of programs offered (e.g. engineering costs about twice as much as business, and nursing costs three times as much as liberal arts); (2) Instructional approach (larger vs. smaller classes, distance or hybrid vs. classroom-based, tenured faculty vs. lecturers or adjuncts); (3) Low- or high-cost location (e.g. Oklahoma is generally less expensive than New Jersey); (4) Size (larger institutions usually spend less per student) (5)

Age of institution (new institutions have start-up costs, older ones may have costly historic buildings to maintain and operate); and (6) Management philosophy and administrative efficiency.

Students of all levels need to know how to write a well-reasoned, coherent research paper—and for decades Kate L. Turabian's *Student's Guide to Writing College Papers* has helped them to develop this critical skill. For its fifth edition, Chicago has reconceived and renewed this classic work for today's generation.

Addressing the same range of topics as Turabian's *A Manual for Writers of Research Papers, Theses, and Dissertations* but for beginning writers and researchers, this guide introduces students to the art of formulating an

effective argument, conducting high-quality research with limited resources, and writing an engaging class paper. This new edition includes fresh examples of research topics, clarified terminology, more illustrations, and new information about using online sources and citation software. It features updated citation guidelines for Chicago, MLA, and APA styles, aligning with the latest editions of these popular style manuals. It emphasizes argument, research, and writing as extensions of activities that students already do in their everyday lives. It also includes a more expansive view of what the end product of research might be, showing that knowledge can be presented in more ways than on a printed page. ties with the national administration of President Lyndon B. Johnson and with Johnson's Great Society programs. Governor Breathitt led successful campaigns for economic and industrial development, civil rights legislation, increased support for education, and expansion and improvement of the state highway and park systems. His most significant defeat was the rejection in 1966 of a new state constitution. His administration won several national awards, including: a Lincoln Key Award (1966) for leadership in the passage of civil rights legislation; Society of Industrial Investors' award (1964) for the best industrial development program; the Midwest Travel Writers Association award (1965) for the best travel promotion program; and the U.S. Department of Interior Distinguished
