The Murder: When Elizabeth's parents were found savagely butchered in their elegant Virginia country home, she and Jens fled to Europe-igniting an international manhunt that spanned three continents. The Trial: The sensational courtroom drama that followed painted a twisted portrait of two golden youths consumed by hatred and perverse fantasies. It seemed like Johnathan Pearce's biggest problem was the arrival of a little brother just a month before his birthday. Now, his parents keep insisting they have something planned, that they have not forgotten. Of course, John never found out if they meant it. In fact, he never got to spend more than a few days as an older brother. The day he returned with his family from the hospital was when an incident occurred in his small American hometown of Ferman. It's not a day that will be recorded in history; for all intents and purposes, a freak storm descended on the city and destroyed his house and a nearby recycling plant. But John knows the truth. After all, it was him that drove off the monster. How, he doesn't quite know, but now a one-footed lady has decided to mentor him so that he can get his powers under control. And John is going to need to learn all he can. That monster was just the first. More of them are coming, and they almost seem to have a purpose. But someone couldn't be deliberately summoning them, could they? Kilburne is a biographical tale of John Kilburne, detailing his life from when he was young and far into the future. The first in the series, *Bed of Roses*, tells the story of how he came to his powers and how he learnt to control them. It is a series that has been long underway for me, something that I have been writing for over a decade under many different names and set at various points in time. Kilburne, however, is my most serious and polished attempt, and I cannot wait to write more in the series. I hope you will enjoy reading it as much as I had writing it.

The #1 New York Times bestselling memoir of U.S. Navy SEAL Chris Kyle, and the source for Clint Eastwood ' s blockbuster movie which was nominated for six academy awards, including best picture. From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him “ The Legend ” ; meanwhile, the enemy feared him so much they named him al-Shaitan (“ the devil ”) and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle ' s masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

Degradation, dehumanization, instrumentalization, humiliation, and nonrecognition – these concepts point to ways in which we understand human beings to be violated in their dignity. Violations of human dignity are brought about by concrete practices and conditions; some commonly acknowledged, such as torture and rape, and others more contested, such as poverty and exclusion. This volume collates reflections on such concepts and a range of

practices, deepening our understanding of human dignity and its violation, bringing to the surface interrelationships and commonalities, and pointing to the values that are thereby shown to be in danger. In presenting a streamlined discussion from a negative perspective, complemented by conclusions for a positive account of human dignity, the book is at once a contribution to the body of literature on what dignity is and how it should be protected as well as constituting an alternative, fresh and focused perspective relevant to this significant recurring debate. As the concept of human dignity itself crosses disciplinary boundaries, this is mirrored in the unique range of perspectives brought by the book ' s European and American contributors – in philosophy and ethics, law, human rights, literature, cultural studies and interdisciplinary research. This volume will be of interest to social and moral philosophers, legal and human rights theorists, practitioners and students.

#1 New York Times bestselling author Stephen King ' s terrifying novella about a town engulfed in a dense, mysterious mist as humanity makes its last stand against unholy destruction—originally published in the acclaimed short story collection *Skeleton Crew* and made into a TV series, as well as a feature film starring Thomas Jane and Marcia Gay Harden. In the wake of a summer storm, terror descends...David Drayton, his son Billy, and their neighbor Brent Norton join dozens of others and head to the local grocery store to replenish supplies following a freak storm. Once there, they become trapped by a strange mist that has enveloped the town. As the confinement takes its toll on their nerves, a religious zealot, Mrs. Carmody, begins to play on their fears to convince them that this is God ' s vengeance for their sins. She insists a sacrifice must be made and two groups—those for and those against—are aligned.
